

Screen on/off control setting by 0709

Phone positioned on a bike mount. Cycling at complicated trajectories (city streets) by a Gesture wave (on/off) keeps your Locus map screen on ! Locus screen on/off control set is short (15s) for max energy saving. Except by Gesture control by a changed **config.cfg**

Config.cfg: Line 278\_279:

```
# Disable "Turn off if idle" when screen was turn on by gesture (default: false)
turn_on_screen_by_gesture_disable_auto_screen_off=1
```

Free set: Android Sleep After: 30' - 10' - 5' - 2' - 1' - 30" - 15"
